

RIOS Certification Bodies

The following certification bodies are accredited by ANAB to certify companies to the Recycling Industry Operating Standard (RIOS):

- **NSF-** <http://www.nsf.org/services/by-company/nsf-isr/>
- **Orion Registrars-** <http://www.orion4value.com/>
- **Perry Johnson Registrars-** <http://www.pjr.com/>
- **SAI Global-** <https://www.saiglobal.com/>

Once a company signs up for RIOS membership and begins implementation of their QEHS management system, they should contact a certification body to conduct the audit.

Recyclers are encouraged to consider more than one CB before making their selection, as each of the companies listed may vary based on availability, price, and scope of service.

For questions about certification bodies, contact Darrell Kendall, Executive Director of RIOS at dkendall@rioscertification.org.
